

# EBM Global Feature Importance & Monotonicity Analysis

Feature Name

Effect Type based on Spearman Rank Correlation ( $\rho$ ):  
•  $\rho > 0.85$ : Monotonic Increasing  
•  $\rho < -0.85$ : Monotonic Decreasing  
•  $|\rho| \leq 0.85$ : Non-Monotonic / Complex

Values in brackets: (Mean Abs Score | p-Value)

- Monotonic Increasing
- Monotonic Decreasing
- Non-Monotonic / Complex
